

Eric C Chiruka

About me

MComp Computer Science graduate with a strong drive to learn new technologies. Hoping to get a technical graduate role that can challenge me as well as teach me new technologies.

In my spare time enjoy running, trying out FOSS software such as GNU/Linux distros; tiling window managers such as AwesomeWM and EXWM. Occasionally I collect keyboards.

Experience

- 2018 – 2019
Cornwall Pub
Bartender
- 2019 – 2020
USW Student Union
Bartender

During my time in previous jobs I gained a great insight as to what a professional environment is like. Working in these previous jobs I learned a lot and gained many soft skills.

Tools and Technologies

C++	<div><div></div></div>
C#	<div><div></div></div>
Python	<div><div></div></div>
Git	<div><div></div></div>
Bash	<div><div></div></div>

Soft Skills

Communication	<div><div></div></div>
Teamwork	<div><div></div></div>
Decision making	<div><div></div></div>
Problem solving	<div><div></div></div>
Adaptability	<div><div></div></div>
Time management	<div><div></div></div>

Education

2016 – 2020
MComp Computer Science
University of South Wales

During my time at USW I gained a particular interest in robotics and FOSS.

My interest in robotics began when I was introduced to the Ev3 robot during my third year of study. The Ev3 had to Robotrace a track, whilst reading a morse code message using reflected light intensity to read a morse code message underneath it.

In my fourth year of study I got to play the Arduino Nano in an assignment that was basically a micromouse contest.

My interest in FOSS began when I did the operating systems concepts module in second year that introduced me to GNU/Linux. Since then I've been distro hoping, scripting and ricing my desktop.
